PROFILE SUMMARY

Data Analyst with a foundation in SQL, Python, Advanced Excel, and Power BI. Experienced in analyzing datasets, building interactive dashboards, performing data validation, and generating business reports through academic projects. Skilled in identifying trends, tracking KPIs, and transforming raw data into actionable insights. Passionate about solving business problems using data and eager to contribute to data-driven decision-making in a fast-paced financial environment.

EDUCATION

- **Master of Computer Applications (MCA)**, Invertis University **2024–2026**
- **Bachelor of Computer Applications (BCA)**
Specialization in Cloud Technology and Information Security (CTIS),
Assam Downtown University **2020–2023**

TECHNICAL SKILLS

Programming	SQL (Join, Window Function, Subqueries, Aggregate Function), Python (Pandas, NumPy), JavaScript, HTML, CSS
Data Analysis	Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Statistical Analysis, Dashboard Development, KPI Reporting, ETL Basics, Data Modeling, Trend analysis, Data Quality Checks, Business Reporting, Process Improvement
Advanced Excel	Pivot Tables, Pivot Charts, Power Query, VLOOKUP, XLOOKUP, INDEX-MATCH, Conditional Formatting, Charts, SUMIFS, COUNTIFS
Tools, IDEs & Cloud	Git, GitHub, Jupyter Notebook, Visual Studio Code, AWS Fundamentals
Data Visualization	Power BI, Matplotlib
Professional:	Analytical Thinking Problem Solving Attention to Detail Critical Thinking Time management

PROFESSIONAL EXPERIENCE

- Data Science Master Virtual Intern -** April – June 2025
AICTE – EduSkills (Supported by Altair), Invertis University — Virtual Internship
- Completed a 10-week Data Science internship focused on Data Science fundamentals, Python, SQL and data analytics.
 - Performed data cleaning, preprocessing, EDA, and visualization for real-world datasets to extract meaningful business insights.

PROJECTS

- Sharjah MIS Excel Report** **GitHub:** [<https://github.com/Irshadali07/Sharjah-MIS-Excel-Report>]
Advanced Excel, Pivot Tables, Power Query, Charts
- Built an MIS report in Advanced Excel to organize and analyze business data across multiple units.
 - Performed data cleaning and validation on 500+ records to improve data accuracy and built interactive charts with slicers/filters to visualize key business trends.
- Mobile Sales Dashboard** **GitHub:** [<https://github.com/Irshadali07/Sales-Dashboard>]
Power BI, Excel, Power Query, DAX, Data Modeling
- Designed an interactive Power BI dashboard analyzing 769M+ total sales and 19K+ units across 5 mobile brands.
 - Analyzed sales data using charts, filters, and KPI cards across 4K+ transactions to identify trends and support decision-making.
- Smart Online Library Management System** **GitHub:** [<https://github.com/Irshadali07/SmartOLMS>]
Python, Flask, SQLAlchemy, SQLite, HTML, CSS
- Developed a Library Management System supporting 100+ books with secure login and role-based access (Admin/User).
 - Built 4+ modules including book management, issue/return tracking, and eBook management using Flask and SQLAlchemy.

PROFESSIONAL CERTIFICATION

Data Analytics Essentials – Cisco Networking Academy	2026
SQL and Relational Databases 101 – IBM Cognitive Class	2025
Python 101 for Data Science – IBM Cognitive Class	2025
Microsoft Excel with A.I Masterclass – SkillCourse	2026
